## Activity

This activity follows the standard database question format. Students will read, interpret and analyze the included documents to answer the prompt, citing the provided sources to support their arguments. Alternatively, for use as a formative, rather than summative assessment, students can use the included

## Primary Source

Analysis Worksheet to guide their interpretation and analysis of each document. Then the class could discuss as a whole or in groups the value of each document for answering the prompt or supporting an argument.

Alternatively, for use as a formative, rather than summative assessment, students can use the included Primary Source Analysis Worksheet to guide their interpretation and analysis of each document. Then the class could discuss as a whole or in groups the value of each document for answering the prompt or supporting an argument.
